D. Highlight Facilities, Infrastructure of Pre Incubation & Incubation kind and Student bodies/clubs engaged in promotion of Innovation and Entrepreneurship in the Campus

- a. The University has an **Innovation Centre**, which is equipped with state of the art apparatus and scientific equipments. Innovation Centre, Bundelkhand University, Jhansi provides analytical facilities in the area of biological, physical and chemicals sciences. The centre has established Central Instrumentation Facility (CIF) to promote R&D in university and its affiliated colleges and to provide analytical facilities to researchers and industries throughout India. Sophisticated analytical instruments are vital for pursuing research and performing quality R& D. X Ray Diffractometer, Gas Chromatograph Mass Spectrometer, Ultra Centrifuge, Digital Imaging System, Multi Mode Microplate Reader, Real Time PCR, PQMS, Two Dimensional Gel Electrophoresis etc. These instruments are expensive and cannot be provided through individual project mechanism. Moreover, these instruments are of inter/multidisciplinary utility and thus it is desirable to use them on sharing basis for their optimum utilization.
- b. The University has an **Innovation Club** which holds various events and competitions in the campus for students
- c. The University also has an **Incubation Unit**. Details of which are attached further. <http://basicbujhansi.com/> . Seven startups are registered with the Incubation Centre.

-
- d. The University also has a **IPR Cell** to facilitate students and faculty members as and when needed
 - e. The University also has an **Entrepreneurship Development Cell (BUEDC)** The aim of Entrepreneurship Development Cell (EDC) at Bundelkhand University, Jhansi is to develop and strengthen entrepreneurial qualities in the budding professionals who are interested in starting their own ventures. The University aims to provide infrastructure and technical support to the students having innovative ideas to transform into new products and services for the betterment of the society. The EDC shall also assist all the aspirants with mentoring, planning and execution of their start up idea into a real business. The EDC shall maintain a pool of Sponsors like banks, national entrepreneurship training agencies, corporate and industrial houses, traders and others, who are willing to aid budding entrepreneurs.
 - f. **Internal Quality Assurance Cell** In pursuance of the National Action Plan of the National Assessment and Accreditation Council (NAAC), Bangalore, for performance evaluation, assessment and accreditation and quality upgradation of institutions of higher education, the NAAC proposes that every accredited institution should establish an Internal Quality Assurance Cell (IQAC) as a postaccreditation quality sustenance measure. Since quality enhancement is a continuous process, the IQAC will become a part of an institution's system and work towards realising the goals of quality enhancement and sustenance. The prime task of the IQAC is to develop a system for conscious, consistent and catalytic improvement in the performance of institutions. The IQAC will make a significant and meaningful contribution in the post accreditation phase of institutions. During the post-accreditation period, the IQAC will channelize the efforts and measures of an institution towards academic excellence

All the above committees are engaged in promotion of Innovation and Entrepreneurship in in the campus.

Brand Name: **Source Volt Private Limited**

Founded Year: 2023

Location: Jhansi

Industry: TECHNOLOGY HARDWARE DEVELOPMENT

Website: www.sourcevolt.tech

Description: The core idea is to design a power production system that operates in a closed-loop manner, meaning it does not rely on an external energy source. Instead, it utilizes internal mechanisms to produce electricity continuously without the need for regular refueling or external inputs. Traditional renewable sources like solar, hydro, wind, and biomass rely on capturing and converting external energy (such as sunlight or wind) into electricity. In this new vision, the focus is on exploring alternative conversion processes or tapping into internal energy reservoirs.
